

SF551

The ISEKI SF551 is a large capacity centre collect rotary mower. Fitted with a 1.52m (60") deck and a 1300 litre hopper, the SF551 is highly productive. The new ISEKI Stage V 36kW (49hp) engine is economical, yet powerful providing ample performance to cut and collect lush grass growth and maintain speed. The 1.52m (60") deck has a single point height of cut adjustment or optionally, electric adjustment. Alternatively a Mulching Collecting Flail may be fitted. With a mulching plate supplied, the SF551 is an extremely versatile mower.
